OUR STORY

American Surplus & Manufacturing (AS&M) has evolved into the iconic Ice Castle Fish Houses since its establishment in Minnesota in 1993. The journey to becoming the premier manufacturer of quality ice houses began from humble origins in the locally known Smith Addition, where AS&M operated out of a small concrete building, selling surplus items, sheds, and doghouses,.

A pivotal moment arose in 1997, when AS&M was commissioned to build 10 sheds on wheels instant success marked the start of the Ice Castle Fish House. Over the past 25 years, Ice Castle has been at the forefront of innovation, introducing features that have revolutionized the wheel house industry. The incorporation of AC units and water/ wastewater holding tanks transformed our fish houses into All-Season RVs, culminating in RVIA certification in 2010.

Today, Ice Castle boasts a team that has grown from 8 employees to 150 during peak demand. Our commitment to providing All-Season RVs, equipped with materials designed to withstand harsh weather conditions, reflects our pride in delivering a product that stands the test of time. We eagerly anticipate being a part of your next adventure, whether it's a simple lakeside excursion or an epic cross-country journey!

An Ice Castle is more than a Fish House, it's your ultimate retreat for every season.

Crafted to cater to the needs of anglers, hunters, campers, and outdoor enthusiasts, we offer a diverse range of layouts perfect for your next adventure.

LITTLE SKIDDER

6.5' wide designed for early and late ice.

Extend your ice fishing season or get on the ice earlier with a skid house designed for effortless transport across frozen lakes. Built with durable aluminum skids, these lightweight shelters offer superior mobility, exceptional comfort, and a fishing-focused design.

Quality of a Skid House

Crafted for comfort, safety, and longevity, our premium skid houses are built to withstand harsh winter conditions while providing a warm, secure, and enjoyable fishing environment.

Product Specifications

- All aluminum 6.5" wide frame is lightweight, and won't rust or pull apart
- Built-in aluminum skids are durable, lightweight and easy to transport
- Seamless Durabond Panel® construction insulates and prevents leaks
- Slip-resistant flooring increases safety on the ice
- Fiberglass interior with plenty of room for gear and accessories
- No wood to rot or get waterlogged
- Gel coat exterior looks great and protects your finish season after season
- Customize your skid house
